

My thanks to all to all who played and especially those who signed up late and brought their checks. Thought the course was in great shape and the weather was good until the marine layer started to come in. It always helps when your partner has one of his best games, then you only have to pick up a good score (net 0) on the holes he misses. The flights were unbalanced because of a last minute player change but, it didn't make any difference to the winners. First place guys get \$15 each and second \$10 each.

See you in August at Pajaro.
